Proposed Work Program Responsive to ED/EC M-226 of 19 Feb 1957

Enhance the utility of evaluated intelligence pertaining to economic defense problems. (EDAC D-127/3 January 29, 1957, Tab A Para 14)

It is proposed that the above course of action be implemented by carrying out a continuing review of multilateral and U.S. unilateral controls for the purpose of determining the need for an extension or reduction of these controls as indicated by new intelligence and by utilizing intelligence on a continuing basis for the enforcement of these controls.

The determination of items which the U.S. will seek to retain on the China differential is currently underway and intelligence bearing on this problem is being provided.

Intelligence will be provided on a continuing basis to Working Group I in support of the U.S. position in CA/COCOM/CHINCOM on shipments under exceptions procedures and the need for extension or reduction of controlled items based on new information.

Intelligence support will be provided on a continuing basis to Working Group II on transactions which are possibly in evasion of controls, for use in taking preventative action to stop such diversions, effectuating the punishment of offenders and carrying out U.S. administrative procedures. Intelligence will also be provided to Working Group II for the purpose of permitting an appraisal of the effectiveness of auxiliary controls and aiding in the negotiation of new enforcement control proposals.

It is further proposed that when requested, intelligence will be provided as appropriate in carrying out the Courses of Action (Para 9 thru 22) enumerated in EDAC D-127/3, January 29, 1957, Tab A.
